# PRODUCT INFORMATION

## ENGINE

The air-cooled 865cc power plant is a modern design but styled to look like an authentic parallel-twin of the 1960s, right down to the dummy pushrods and 'carburettors' that hide the modern fuel injectors. But beneath the retro looks lies a very current and usable motorcycle that appeals to new and experienced motorcyclists alike. Thumb the electric starter and today's Bonneville / Bonneville T100 comes to life instantly and with the distinctive tone that only a parallel twin can deliver. A healthy 67bhp and 50 ft.lbs of torque give the modern day Bonneville peppy performance that is at home both in the city and on the open road.

---

## HANDLING

Lightweight 17" cast alloy wheels make the Bonneville agile and easy to ride, while the low 740mm seat height makes it accessible to motorcyclists of all ages and experience. The Bonneville & Bonneville T100's 41mm front forks and traditional chromed rear shocks provide poised handling and a comfortable ride.

---

## STYLE

Short mudguards and stylish chrome megaphone silencers complete the 1970s look for the Bonneville. While the standard Bonneville delivers an authentic roadster experience, the T100 takes things a stage further with real 1960s' detailing. Peashooter silencers, classic coachlined two-tone paintwork and spoked steel wheels (with a larger 19" front) give the T100 more presence and the sort of kudos only a 'Brit twin' can deliver.

---

# SPECIFICATIONS

ENGINE AND TRANSMISSION			Standard	T100
Type	Air-cooled, DOHC, parallel-twin, 360° firing interval		●	●

## OUR WORK EXTENDS FAR BEYOND THE FACTORY GATES

We're proud of the bikes we build. We're proud of the materials we use and the people who turn our ideas into reality. It's simple. If it doesn't meet our exacting standards, we won't put our name to it. We test every component in every condition. Every single part and accessory goes through a rigorous assessment programme to simulate the very worst you can throw at it, and then some more. Hot or cold, rain or shine, one-up or two, we go to the limit to give you the best. Our confidence provides you with a two-year, unlimited mileage warranty on your new Triumph and Genuine Accessories. Alongside the knowledge that we give you a 12-month, unlimited mileage warranty on replacement parts. Our parts service is faster and more efficient than any other – we even supply parts for Triumphs dating back to 1991. If you want the best for your bike, you want Triumph Genuine Parts. And with Castrol now proudly installed as worldwide oil partner – you can be guaranteed the absolute best care for your engine.
