PRODUCT INFORMATION

ENGINE

Designed from the ground up to meet the demands of some of the most discerning motorcyclists, the Tiger 800 comes highly specified and delivers a unique experience for the adventure-minded rider. This unique experience comes courtesy of the three-cylinder 800cc powerplant, delivering 94bhp and an extremely accessible 58 ft.lbs of torque. With its flat torque curve and smooth power delivery, the Tiger 800 has been designed to be easy to ride in all conditions, including off-road.

CHASSIS

The Tiger 800 features a tough steel frame capable of carrying large amounts of luggage and coping with the rough and tumble of off-piste riding. The Tiger 800XC comes with a 21" spoked front wheel to deliver maximum ground clearance and the ability to cope with rough trails. With a high-level front mudguard and sturdy hand guards, there can be no doubt that the latest Tiger has been developed to cope with demanding conditions.

BRAKES

Twin 308mm discs are gripped by two-piston sliding caliper brakes for powerful and progressive stopping power. Standard ABS system adds additional braking security and can be switched on and off by the rider.

ADJUSTABLE RIDING POSITION

Rider seat has two settings as standard for 845mm or 865mm seat height for the Tiger 800 XC and 810mm or 830mm for the Tiger 800. Optional accessory saddle further reduces seat height by 20mm, making the Tiger 800 one of the most accessible adventure bikes on the market. Adjustable handlebars further enhance rider comfort.

HIGH POWER

Class-leading 645w generator ensures that you can fully load your Tiger 800 with those essential electrical accessories required for year-round, go anywhere riding.

SUSPENSION AND SWITCHABLE ABS

Anti-lock brakes can be switched off for off-road riding with the long travel upside down front forks on the XC version more than capable carrying both rider and pillion over tricky terrain.

SPECIFICATIONS

ENGINE AND TRANSMISSION			Standard	XC
Type	Liquid-cooled, 12 valve, DOHC, in-line 3-cylinder		●	●
Capacity	799cc		●	●
Bore/Stroke	74.0 x 61.9mm		●	●
Fuel System	Multipoint sequential electronic fuel injection		●	●
Exhaust	Stainless steel 3 into 1, high level stainless steel silencer		●	●
Final Drive	O ring chain		●	●
Clutch	Wet, multi-plate		●	●
Gearbox	6-speed		●	●
Oil Capacity	3.7 litres (1.0 US gals)		●	●

PERFORMANCE	(Measured at crankshaft to 95/1/EC)	Standard	XC
Maximum Power	95PS / 94bhp / 70kW @ 9300rpm	●	●
Maximum Torque	79Nm / 58ft.lbs @ 7850rpm	●	●

CHASSIS, RUNNING GEAR AND DISPLAYS			Standard	XC
Frame	Tubular steel trellis frame		●	●
Swingarm	Twin-sided, cast aluminium alloy		●	●
Wheels	Front	Cast aluminium alloy 10-spoke 19 x 2.5in	●	–
		36-spoke 21 x 2.5in, aluminium rim	–	●
	Rear	Cast aluminium alloy 10-spoke 17 x 4.25in	●	–
		32-spoke 17 x 4.25in, aluminium rim	–	●
Tyres	Front	100/90 ZR19	●	–
		90/90 ZR21	–	●
	Rear	150/70 ZR17	●	●
Suspension	Front	Showa 43mm upside down forks, 180mm travel	●	–
		Showa 45mm upside down forks, 220mm travel	–	●
	Rear	Showa monoshock with hydraulically adjustable preload, 170mm rear wheel travel	●	–
		Showa monoshock with remote oil reservoir, hydraulically adjustable preload, rebound damping adjustment, 215mm rear wheel travel	–	●
Brakes	Front	Twin 308mm floating discs, Nissin 2-piston sliding calipers, (Switchable ABS)	●	–

ACCESSORIES

	Accessory Description
Adventure Panniers	Triumph luggage system with 'one key' locking and release mechanism. Fully weatherproof with brushed aluminium lids. Dynamic mounting system ensures uncompromised performance even fully loaded. 62 litre capacity includes sufficient space for a full face helmet.
Adventure Top Box	Bespoke, fully weatherproof Triumph top box with 35 litre capacity able to comfortably fit a full face helmet. Features high security locking mechanism, brushed aluminium lid cover and integral 12v power socket with automatic electrical connection. Features an impressive 10kg weight limit and must be installed with sliding carriage.
Engine Protection Bars	High strength rigid steel engine bars finished in durable textured powder coat finish. Manufactured from 22mm steel tube for optimum strength.
Headlight Protector	Offered for off-road use, the brush guard protects headlights from flying debris and protects you from being left in the dark.
Alloy Sump Guard	Heavy gauge brushed aluminium protection for the sump and underside, designed to deflect debris churned up when off-road riding. Manufactured from high strength, marine-grade 5083 alloy to cope with extreme environments. Featuring a drilled lightweight competition look, and strengthened mounting hardware.
Tyre Pressure Monitoring System (TPMS)	Optional tyre pressure sensors for Tiger 800. Displays current front and rear tyre pressures via the instrument panel with automatic warning alerts if tyres are below optimum levels.
Adventure Tail Bag	Semi-formed tail bag offering 50 litres of luggage stowing capacity. Features include water resistant zips, rain cover and shoulder strap for use off the bike.
Arrow Slip-On Silencer	Increased power, significant weight saving and the all-important soundtrack. Premium materials including titanium and carbon fibre ensure the Arrow silencer looks as good as it sounds, while a bespoke engine tune guarantees optimum performance.

CLOTHING

	Clothing Description
Navigator Jacket	A highly functional adventure-tour garment, this jacket uses the latest in water and dirt repellence fabric technology. Large removable ventilation panels front and back allow in maximum air flow whilst the Sympatex® performance z-liner and Outlast® technology allow for wet, warm or cold weather riding.
Navigator Jeans	Complimenting the Sympatex® Navigator Jacket, these matching jeans also use the latest in water and dirt repellence fabric technology.
Jerez Jacket	The AirFlow mesh construction is perfect for keeping cool when the temperatures rise. This jacket also features a removable windproof liner to keep the early morning or late evening cooler temperatures at bay.
Adventure Boot	An enduro adventurer style boot that offers off-road and on-road functionality. Full leather construction combined with plastic mouldings ensure higher abrasion protection whilst not compromising on comfort.

OUR WORK EXTENDS FAR BEYOND THE FACTORY GATES

We're proud of the bikes we build. We're proud of the materials we use and the people who turn our ideas into reality. It's simple. If it doesn't meet our exacting standards, we won't put our name to it. We test every component in every condition. Every single part and accessory goes through a rigorous assessment programme to simulate the very worst you can throw at it, and then some more. Hot or cold, rain or shine, one-up or two, we go to the limit to give you the best. Our confidence provides you with a two-year, unlimited mileage warranty on your new Triumph and Genuine Accessories. Alongside the knowledge that we give you a 12-months, unlimited mileage warranty on replacement parts. Our parts service is faster and more efficient than any other – we even supply parts for Triumphs dating back to 1991. If you want the best for your bike, you want Triumph Genuine Parts. And with Castrol now proudly installed as worldwide oil partner – you can be guaranteed the absolute best care for your engine.
